

# MUBASHIR T

## Full stack developer

As a full-stack developer with 1.5 years of experience in web development and web applications, I have developed several websites, administrative dashboards, and educational learning applications. I am also pursuing flutter development. My experience has taught me about product development, effective communication, and error handling. I am now seeking an opportunity that will allow me to continue learning and growing as a developer.

## PARTICIPATING PROJECT

- *Target Learning web app*

I have worked on a large project that involved API integration and web app design, as well as setting up payment gateways. The project included implementing subscription plans and organizing lesson chapters, utilizing the Vimeo player, and utilizing my JavaScript skills. I also utilized Postman for testing and debugging purposes.

<https://elearn.targetlearningapp.com/login.php>

- *Wise Learning web app*

I was responsible for designing this web application and integrating APIs using Postman. The project involved implementing subscription plans and organizing lesson chapters, as well as creating a login panel for users to access the application.

- *Wise manager dashboard*

I designed the dashboard using templates and utilized PHP and MySQL for managing and operating the dashboard. The dashboard was created to serve a chain of users, starting from the owner down to the branch managers and sales executives. Each user type had different tasks and varying levels of access. The main purpose of the dashboard was to manage accounts and obtain student details. Throughout the project, I worked with creating CSV and JS PDF files, as well as utilizing DataTables to handle tables.

- Home Address: Thottathil house.  
Thrikkanapuram(P.O), Malappuram ( DIST)  
Kerala, 679 582

## PROFESSIONAL SKILLS

- PHP
- Laravel
- Bootstrap
- javascript
- css
- MySQLi

## LANGUAGES

- ENGLISH
- MALAYLAM
- TAMIL

## EDUCATION

### **SOFTEN TECHNOLOGIES (COCHIN)**

*completed MCSE and CCNA training | 2020 - 2021*

### **KR'S SREE NARAYANA COLLEGE**

*graduated with a degree in computer science |  
2017 - 2020*

## EXPERIENCE

### **FULL STACK DEVELOPER**

*Freelancing| february 2023 - present*

- working on websites and web apps utilising PHP and Bootstrap for the front end and back end.
- Use ajax and javascript to interact with APIs.
- engaging with customers.

### **FULL STACK DEVELOPER**

*xpertConsortium | Nov 2021 - february 2023*

- working on websites and web apps utilising PHP and Bootstrap for the front end and back end.
- Use ajax and javascript to interact with APIs.
- engaging with customers.

### **ENGINEERING NETWORK**

*Soften Technologies (Cochin)| Nov 2020- 2021*

- establishing local area network's switches and routers using IP addresses and repairing mistakes
